Seasonal Staff Training typically begins the first week of June. Summer (on-grounds) programs are normally completed the last week of July. There is a possibility of an additional week of ministry during the first week of August – a High Adventure Camp in Colorado!

Although we request Camp Appanoose summer staff members to commit to an entire season, we realize that you may have time in which you need to be away.

Please indicate below any weeks (Sunday-Saturday) that may not be available this summer. We will attempt to plan around those dates, as we work on staffing schedules.
